

Leaderlink Manual

The *Leaderlink* manual is the companion to our *Introduction to Group Work Leadership* workshop. It covers the basics of setting up and starting a new support group as well as many of the leader's tasks associated with the ongoing care of the group. It also looks at the qualities of a support group leader and how we might constructively work with some of the challenges we may encounter as our groups and their members grow and transform.

Leaderlink holds within its pages information that is effective in developing and maintaining quality support groups for carers of people living with dementia.
